1. Executive Summary

1.1 Company Summary

Mugshotz is a modern Photobooth Rental service designed to bring fun, creativity and unforgettable memories for any event located in Mauritius. We specialize in providing a fully adaptable photo and video experience for weddings, birthdays, corporate programs and festivals, ensuring that each celebration is captured in a unique and interactive way.

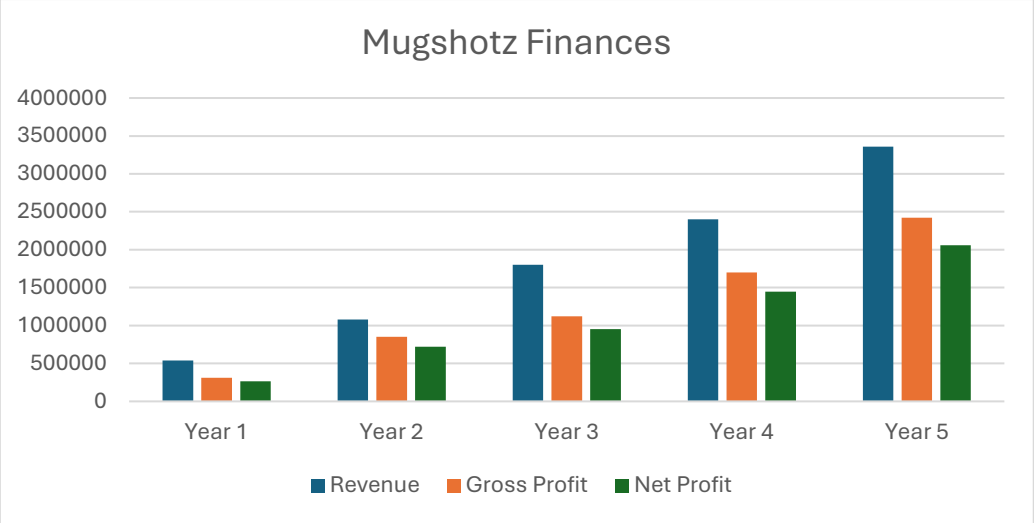
Our photos fulfil all types of events that offer state-of-the-art equipment, immediate digital sharing, and a variety of add-ons, including 360 ° video, AR props and branded photo frames. Whether guests want a quick funny snapshot, a themed photo experience, or a dynamic video recording, Mugshotz makes it easy and memorable.

Mugshotz aims to exceed only one service provider - it is a creative partner in every event. Customer experiences, by focusing on high quality visual and interactive features, we try to create one kind of experience, where guests can laugh, pose, and leave with permanent memories.

1.2 Objectives

For its first year of operation, Mugshotz wishes to accomplish the following objectives:

- Become the leading photobooth rental company nationwide, with aim of being booked for at least one event weekly for the first 6 months and eventually climbing up to 1 event daily by the fifth year.
- With the latest equipment and affordable pricing, paired with immediate support, Mugshotz aims at gaining a loyal clientele.
- With an estimated Rs 7,500 to Rs 10,000 charged averagely for event packages, with the option of having add-ons for an extra amount, we expect Mugshotz to have a total estimated revenue of Rs 540,000 within the first year. Investments are planned to expand the collection of Mugshotz's gear to include the latest photobooth stalls and add-ons. By the end of the fifth year, with the price being updated accordingly, this number is expected to rise to Rs 9,180,000. (((7 500 x 1 event weekly x 6 months) + (7 500 x 2 event weekly x 6 months)) + (7 500 x 3 events weekly x 12 months) + (7 500 x 5 events weekly x 12 months) + (10 000 x 5 events weekly x 12 months) + (10 000 x 7 events weekly x 12 months)). For the gross profit, 20% of the total revenue is subtracted for miscellaneous expenditures for fuel and business dinners. Additionally, the loan payment and the interest, amounting to Rs 130,000 yearly is subtracted up till the 3rd year. As from the third year, up to 20% of the gross profit will be used to maintain and update the gear. For the net profit, a tax of 15% is applied on the remaining amount.



1.3 Key Success for Mugshotz

- To offer customizable photobooth stations strictly according to the customer's need (weddings, corporate events, cultural events, etc..).
- Easy to transport and easy to set up at any given location (flexibility and mobility)
- To aim for excellent, high quality customer service feedback to help make our service trustworthy and reliable
- To create and make an impactful online/social media presence
- To create an affordable yet profitable service which can potentially help in retaining customers
- Make use of high quality, professional equipment for much better results and provide on the spot printing and access to digital versions of any photos or videos taken.

1.4 Mission of MugShotz

Our mission here at MugShotz is to capture life's most memorable moments through innovative, high quality and customizable photobooth experiences that will bring people together. We aim to combine technology, fun and customer care to turn every click into a story worth sharing. We strive to deliver reliability, affordability and personalization – ensuring every client feels valued and every event feels unique. We're all about good moments, bold memories and helping people celebrate life – *one shot at a time*.

2. Description of Business

Mugshotz is an innovative photobooth rental company that delivers fully customizable, high-quality photo and video experiences for all possible events. We can provide a wide range of setups that can easily adapt to any theme, decor or background. Our photobooth setups are also compact and moveable. This makes them convenient for any venue changes.

The photobooths also come with fun and unique props that help to enhance the experience of people. Moreover, our company prioritises our customers, so, we offer them a choice of either obtaining the photos via instant printing or via digital sharing. We are also aware that it can be quite tedious for our customers to operate the photobooth by themselves, which is why we provide highly trained staff to manage the photobooths and to kindly instruct clients how to use them to maximise their user experience.

Our 360° video experience can be tailored with trending music and personalized digital templates, creating a more immersive and meaningful connection to each unique event. All the above help us to achieve our main goal- ensuring that every guest has an affordable and long-lasting way of remembering the blast that they had at the event.

2.1 General Business Description

Mugshotz is a creative photobooth rental service offering customizable photo and video experiences for events across Mauritius. Our services cater to weddings, birthdays, corporate events, and festivals amongst others, providing guests with instant printed and digital memories.

Implementation Plan:

1. Market Research and Analysis: Conduct surveys with event planners, schools, couples, and corporate clients to identify photobooth preferences, popular features like 360° video and AR filters, and set pricing that fits client needs.

2. Equipment Procurement: Purchase professional equipment such as DSLR cameras, touchscreen systems, lighting equipment, printers, custom backdrops and durable props.

3. Staff Recruitment and Training: Hire and train assistants skilled in photography, capable of setting up and operating the equipment, while providing excellent customer service.

4. Pricing Strategy: Offer flexible basic, premium, and deluxe packages to suit different needs and budgets, with optional add-ons like unlimited prints, premium props, and digital filters. Include special pricing incentives such as student discounts, wedding packages, and seasonal promotions.

5. Marketing and Partnerships: Collaborate with wedding planners, event venues and hotels. Promote Mugshotz on social media platforms such as Instagram and TikTok, using video clips shot in real events and client feedback.

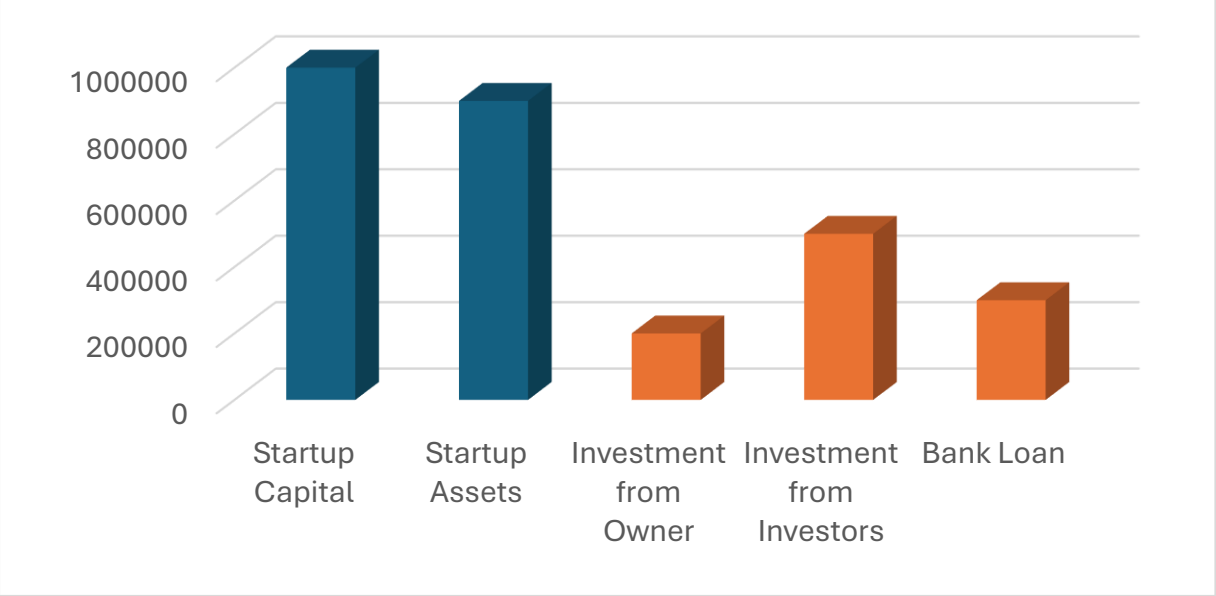
6. Operating Hours: Offer flexible availability to match event schedules, primarily on weekends and evenings, with accessible online booking and customer service options.

7. Maintenance and Quality Control: Perform routine checks and cleaning of equipment and props after each event. Regularly inspect and maintain any electrical apparatus to ensure safety and proper functioning.

8. <u>Growth Strategy:</u> Expand by introducing mobile photobooth caravans and mall stalls. Introduce unique features such as AI photo effects, memory capsules and eco-friendly booths to stay ahead of market trends.

2.2 Start-Up Funds

1. The photobooth business will be initially funded through a total capital of **Rs 1,000,000**, acquired through both raised capital and small business loans. The initial start-up capital will be used to cover the purchase of assets and equipment within the business, insurance and legal proceedings.
2. The start-up cost for the purchase of assets is estimated at **Rs 900,000**, alongside a legal cost of **Rs 100 000** for the registration of the business.
3. The initial capital amounting to **Rs 700,000** will be contributed by the business owner (**Rs 200,000**) and Ghavish, Meer, Teesha, Khushi and Yashmeeta as investors (**Rs 100,000**), while the remaining **Rs 300,000** will be financed through a small business loan at an interest rate of **7.50% per annum** over **3 years**.



2.3 Location

For our business, we have decided that an online business model would best suit us. According to the Global Digital Report series in 2025(Digital 2025), there were around 1.01 million individuals using the Internet in Mauritius in January 2025. From this same period, it was noted that 67.7 % of the total population, or 859 thousand Mauritians, were using social media. Hence, we will implement a website for a better customer experience. With proper marketing and Search Engine Optimization (SEO), this gives us an idea of how much an outreach Mugshotz potentially has.

However, as we will also need a storage area for our photo booths and props, we have decided to purchase a studio that will serve as both a storage area and exhibition for our collection of photo booths and props.

Chosen location for studio: Royal Road, Camp Fouquereaux.

Key factors for selecting this location include:

1. **Accessibility and reach:** With an online platform, potential clients can view our services, check for availability, reach out for inquiries and even book our services, regardless of the time and their location. This could, in turn, help us generate more leads.
   If the clients wish to see the equipment before booking, they can then visit our studio during business hours and make their choice regarding their packages. Found in Camp Fouquereaux, the studio will also easily accessible as it will be connected to a motorway and can be easily spotted as it will be found along the main road.
2. **Enhanced discoverability and reach:** Contrarily to a physical store, the Internet, which is often the go to for event planning, will make us more discoverable through search engines, local listing and advertisements, increasing Mugshotz's reach.
3. **Data Insights:** We can design the website so that it consensually records data, such as popular rental packages, busy periods and individual preferences of users. We could then accordingly modify our offers and prices, hence maximizing revenue.
4. **Asset tracking and Management:** Within the website, we will implement a custom software which will allow us to track the status of our photo booths and other equipment, such as props and backdrops. This will allow us to monitor which equipment are booked, rented out or due for maintenance, preventing double-bookings and ensuring efficiency.
5. **Portfolio showcase:** The website will enable us to display a portfolio of events upon consent of the clients, backdrops and booth styles. We could also display customizations options, making it easier for clients to envision and select the right photo booth and add-ons for their event. If clients wish to have a hands-on experience and see their custom designs firsthand, they can choose to come visit us at our headquarters and give their input.
6. **Overhead and Operating Costs:** We will need a physical spot to store our equipment and serve as our headquarters. The building we plan to use is owned by one of the business owners and has contractually been declared as property of the business for use. Consequently, monthly expenses, such as commercial rent, utilities and upkeep of the store, will be waived off, leading to higher profit margins.

2.4 Online Services

In addition to our on-site events MugShotz will also have a strong digital presence. MugShotz will offer a reliable and robust online platform where users can view previous events, check availability and much more.

Possible Services Offered:

1. **Pre-Booking Option and Quotations:** Clients can check for availability and pre-book our services in advance especially if their planned event falls within a busy season (wedding season, end-of- year events, holidays, etc..) and can request for quotations.
2. **Special Requests:** Customers can upload their own logos and themes for customized branding for any events.
3. **Facility of payment:** A secure payment gateway will be provided where customers can effectuate payments for bookings/pre-booking safely.
4. **Loyalty Program:** We will implement a loyalty program for frequent customers where they can enjoy deals and other rewards, encouraging them make use of our services again and spread the word.
5. **Checking Past Events:** Customers will have access to a gallery where they can view pictures of our past events and services.
6. **Instant Upload:** After a specific event the customer can view the videos and pictures taken immediately (a QR Code will be provided to the customer to share with guests for access).

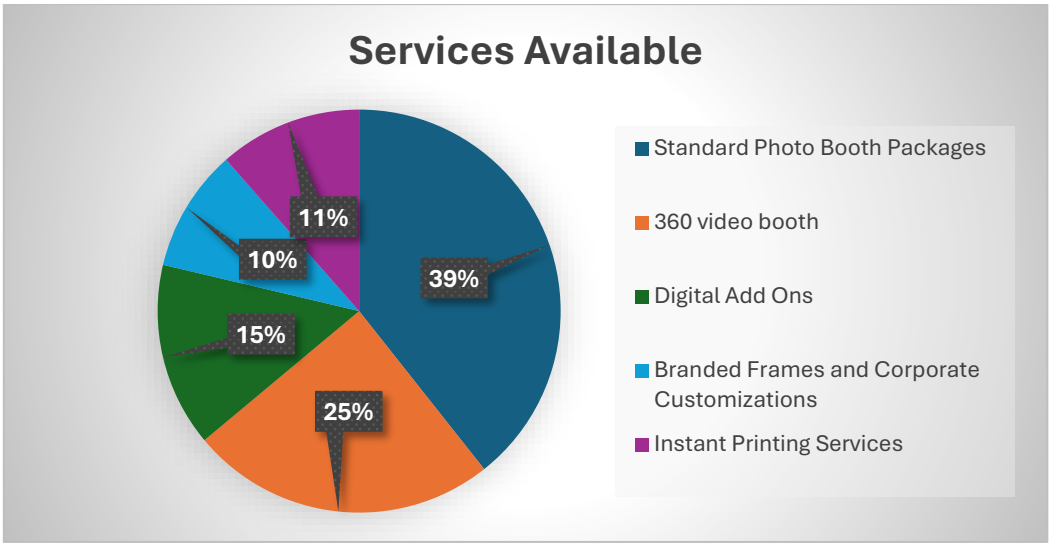
2.5 Posters

A poster has been made featuring the wide variety of services available that Mugshotz proposes, from 360° videos to stylish setups.

Two other posters have been designed as themed advertisements to showcase the brand and increase customer engagement.

2.6 Sales

The pie chart shows the percentage of sale expected by service offered by MugShotz.



---

3. Market Analysis

3.1 Market Analysis Summary

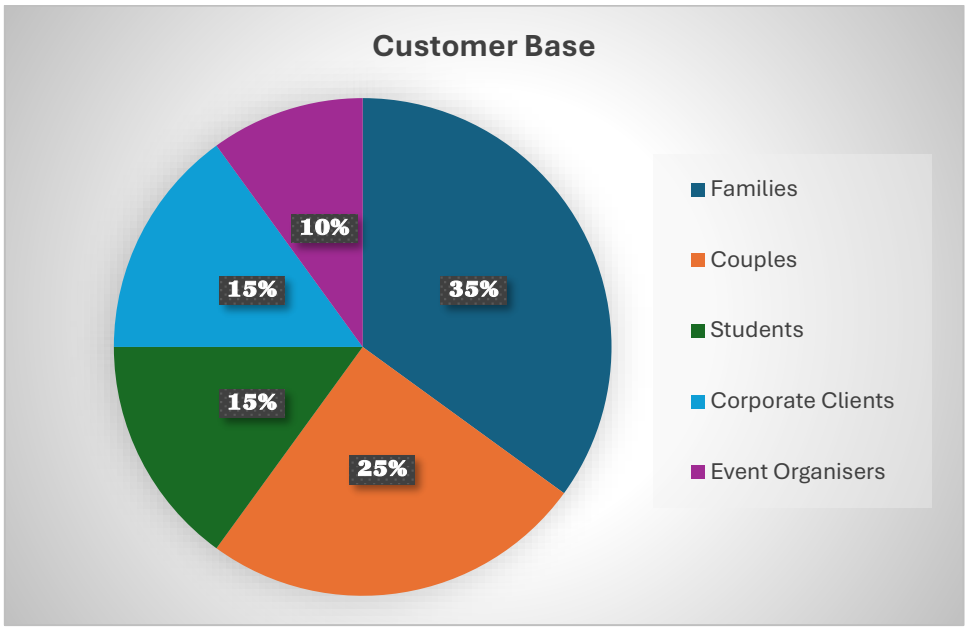
The event entertainment market in Mauritius is observing a growth in demand for both interactive and shareable experiences largely due to the popularity of social media platforms like Instagram and TikTok. Customers are increasingly looking for engaging and memorable activities for events such as weddings, birthday celebrations, school or university functions, corporate events and public relations.

Competitors in the form of photobooths, DJs and decor companies offer DIY setups but there is a clear gap for a complete and integrated approach. DIY setups are limited in quality, and some service providers focus mainly on a single aspect of the event. This therefore leaves a gap for photobooth businesses offering a complete, turnkey experience.

MugShotz is positioned to capitalize on this opportunity to deliver a photobooth experience that is both professional and memorable. By focusing on convenience, creativity and engagement, MugShotz can take a step further from competitors, meeting the organisers and attendees' expectations of a visually appealing and technologically enhanced experience while making it social-media ready.

3.2 Market Segmentation

The customer base for Mugshotz includes multiple customer groups, including students, couples, families, corporate clients and event organisers. Each category is offered tailored packages designed to suit their needs and even types.



3.3 Target Audience

At MugShotz we target a diverse range of customers who value creativity, fun and social connection through visual experiences. Our main audience includes:

- **Couples and Newlyweds:** For weddings, engagements and anniversaries.
- **Youths and Students:** For high school and university students who love trendy and shareable photos for events like proms, parties and graduations.
- **Corporate clients and event organisers:** For companies hosting product launches, team-building events or end-of-year parties.

- **Families and Private Event Hosts:** For baby showers, birthdays, reunions and family celebrations.
- **Festivals and public events:** For local events, cultural fairs and concerts.

3.4 Market Needs

- **Reliability and on-site assistance:** Clients want to guarantee that the equipment will not malfunction and that it is well-maintained. They may often require the presence of a trained on-site professional to assist with the operation of the photobooth, troubleshooting and guest flow.
- **Professional Image Quality:** Customers expect high quality pictures. Hence, to ensure that those expectations are met regardless of the venue, DSLR cameras and studio-quality lighting equipment are needed.
- **Personalization and branding:** Event organizers often require intricate customizations. These may include custom watermarks or logos, custom-designed print templates, custom props and physical backdrops.
- **Diverse photo booth and props option:** Customers require different booth styles to choose from to match different venues and the type of event. This could range from Mirror Booths for more formal events to Open-Air Booths for large groups.
- **Smooth booking experience:** Clients need a simple rental process. This includes transparency throughout the booking process, customizable package options and seamless logistics, such as delivering in time, hassle-free set-up and removal of equipment.

3.5 Industry Analysis

In Mauritius, the event industry has been growing for the past few years with increasing number of Mauritians holding private or corporate events yearly. Event planners are usually the most active in this scene but tend to lack the photo aesthetic aspects. Rentable photobooths like those we offer can thus be of use. No matter how big or small of an event a photobooth area can always fit in. While local photographers are still involved, with this era of social media and a growing emphasis on "Instagrammable" experiences the service we offer would be of great use even more so among our younger customers.

3.6 Competition

1. Other photobooth rental companies

- Direct competitors: Companies like FotoBooth.mu, Fun Photobooth offer very similar services like our company. They also possess professional equipment and provide high

quality photos and videos. Having been in the market for a considerable number of years, they might have already acquired their investments, hence leading to more affordable services compared to us.

2. Event-Based Freelancers and Boutique services

- Many photographers and event planners now offer basic photobooth setups as part of their packages. They might not be technologically advanced, but they compete on:
    1. Price
    2. Convenience
    3. Existing Client Relationships

3. Rental companies and mobile app-based booths

- Rental companies provide basic selfie stations or ring light setups. This is cost-effective and does the work.
- There are some special applications that allow users to generate photos that are already edited to contain different filters, themes and backgrounds. This could be used to bypass photobooth rental companies.

4. Venue's in-house services

- It has become very common for venues to already offer all the different services that a client might require for his event. This is done for convenience. Therefore, we, as a company, might fall behind and lose contracts to those in-house photobooth rental companies.

---

4. Implementation of Business

4.1 SWOT Analysis for Photo Booth Business

In analysing the viability and potential success of MugShotz, it is essential to conduct a SWOT analysis. This strategic tool helps to identify the internal strengths and weaknesses as well as the external opportunities and threats that may impact the business. By understanding these factors, we can better position the business to leverage its advantages, mitigate risks and make informed decisions for long-term success in a competitive market. The following SWOT analysis provides a comprehensive overview of the photobooth.

Strengths:

1. **Customizable Photo Booth and add-ons:** Mugshotz offers customers with the possibility of having custom made photo booths and add-ons, including props,

watermarks and photo frames. In so doing, the customer satisfaction factor can be on a more personal level.

2. **Interactive and Unique Experience:** Unlike traditional cameras, photo booths deliver instant gratification as guests receive the pictures instantly as either a high-quality physical copy or a soft copy. Photo booths can consistently be updated to include the latest trends, such as 360-degree video booths, Augmented Reality filters and digital props and even green screen technology for virtual backdrops.

3. **Scalability:** As the business grows, new photo booth types and props can easily be added and even made by hand at lower costs for the more specific customers.

4. **Ease of booking:** Mugshotz also has an online system that enables clients to check for available booths, select and book packages, as well as pay deposits, all in one session. This process reduces paperwork error, making it hassle-free for the clients and hence, improving the overall customer experience.

5. **Market Appeal:** Photo booths are no longer niche; they are now trending and can be found in nearly all types of gatherings, such as school events, weddings and corporate events.

Weaknesses:

1. **High initial costs:** Setting up the business with professional grade equipment such as DSLR cameras, 360° rigs, AR tech, instant printers require a significant upfront investment, which can be a financial burden in the early stages.

2. **Tech dependency:** The business is fully dependent on its tech. Therefore, any tech malfunction or glitch could greatly impact user experience as well as the company's finances.

3. **Limited market awareness:** Photobooths are yet to become a staple in Mauritian events. Moreover, generational gap can prove to be highly detrimental to our business as we might suffer from non-acceptance.

4. **Logistics and mobility:** Photobooths might not be convenient for every venue. Venues like the beach, hillside or other remote places are associated with unforeseeable factors like weather, terrain and access. Transporting and setting up booths in these locations can prove to be tedious and affect reliability. There is also a potential risk of damaging our expensive equipment.

5. **Social media saturation:** There will be many competitors promoting their businesses on the same platform. As a new business, this will make it difficult for us to stand out and attract customers. Smart and creative strategies will have to be devised.

Opportunities:

1. **Growing Event Industry:** With an increasing number of events including weddings, corporate functions, school events and festivals, there is a rising demand for fun and engaging activities like photobooths.
2. **Corporate Branding & Marketing Events:** Many companies may seek the opportunity to use photobooths for product launches, promotions and employee events which opens the room for custom branding packages.
3. **Partnerships with Event Planners & Venues:** Collaborating with event organizers, wedding planners and popular venues can highly increase the number of bookings and secure long-term business relationships.
4. **Collaboration with Schools & Universities:** Having the opportunity to cover campus events such as proms, freshers' weeks, or graduation ceremonies can help build brand awareness.

Threats:

1. **Smartphone Quality and Apps:** Continuous evolution in smartphone cameras, digital filters and photo-editing software may pose a threat as consumers, specially those on a budget, may choose free, instant alternatives.
2. **Economic Risks:** Economic downturn may prompt clients to reduce unnecessary spending, including event services, which would lower revenue. Income can also fluctuate between busy and off-peak seasons, affecting cash flow.
3. **Operational costs:** Rising operational expenses such as equipment upgrades, staffing and transportation costs can reduce profit margins, especially during periods of lower bookings.
4. **Potential Competition:** Other businesses may replicate the concept, increasing competition by reducing its uniqueness and making it harder to stand out.

4.2 Sales Strategy

The sales strategy is to maximise revenue on all fonts possible using a mixture of outstanding customer service, custom event offerings and promotional incentives to encourage repeat visits. By implementing special promotions/discounts, limited time events, loyalty programs etc… This strategy aims to improve customer satisfaction to foster for long term relationships and to make sure that MugShotz remains in mind whenever an event is being planned.

1. **Bundled Packages & Add-ons:** Along side the instant upload MugShotz offers, clients can be offered customized photo frames and a custom montage of a desired length and theme of the event.

2. **Seasonal Promotions and & Events:** Discounted offers to be offered during peak festive seasons (Christmas, Halloween, wedding season etc...). MugShotz's themed booths will attract clients searching for a unique event experience.
3. **Corporate Partnerships/Collaborations:** MugShotz will collaborate with event planners and halls/venues, hotels to offer affordable and enticing packages to secure consistent bookings and more exposure to larger audiences.
4. **Loyalty Program for Regulars:** Special discounts or free hours will be offered after MugShotz has been booked a few times by a regular client.
5. **Referral Activities and Incentives:** A referral program will be in place to reward clients who bring new customers via word of mouth or sharing/recommending MugShotz's website and previous events. Such Incentives would be discounted add-ons and extra hours on their next booking.
6. **Feedback Systems for continuous Improvements:** To seek feedback actively from customers after any event by providing suggestion boxes, online surveys so as for MugShotz to improve service quality for future bookings.
7. **Interactive & regular social media campaign:** MugShotz will engage audiences actively through social media platforms such as Instagram and TikTok to share event highlights, clients' thoughts and opinions. This online visibility will help attract newer customers.

4.3 Marketing Strategy

MugShotz 's marketing strategy aims to build strong brand awareness, attract a wide range of event clients and establish a lasting emotional connection with customers. By combining digital marketing, partnerships and personalized engagement, MugShotz will position itself as the go-to photobooth experience provider in Mauritius.

1. **Brand Positioning:** MugShotz will be promoted as a fun, modern and innovative brand that blends technology with creativity, offering not just a service but an experience filled with laughter and memories.
2. **Social Media Marketing:** Using Instagram, TikTok and Facebook, MugShotz will share video clips of guest using the 360° booth, behind -the -scenes setups and themed photos to showcase authenticity and fun. We will use targeted ads focusing on event planners, couples, students and corporate clients.
3. **Collaborations and Partnerships:** Collaborations with wedding planners, event decorators, DJs, hotels and venues will provide consistent event bookings and exposure. We will offer special rates for schools, universities and corporate clients, encouraging bulk or annual bookings. Participation in expos and festivals will further expand visibility.

4. **Promotions, Discounts and Loyalty Programs:** Offers such as a 10% discount for first-time clients, festive promotions, referral bonuses and loyalty rewards will attract and retain clients. Returning customers get exclusive access to new booth designs and discounted add-ons.
5. **Digital presence and Website:** A user-friendly website will allow clients to check availability, customize their packages, make payments and access event photos via QR codes for a smooth experience. We will include an online quote request and booking system to streamline customer experience.
6. **Influencer and community marketing:** Partnerships with local influencers, photographers, content creators and community events will help build credibility. User-generated content featuring event photos and videos will enhance engagement.
7. **Customer Relationship management:** post-event feedback, thank-you messages, and email campaigns will strengthen customer loyalty and support continuous improvement

4.4 Pricing Strategy

MugShotz's pricing strategy is designed to attract clients across different event types while ensuring consistent profitability. By offering flexible packages, optional add-ons and seasonal promotions, the business provides value and customization to suit every client's budget. This approach makes MugShotz both affordable, competitive and attractive within Mauritius's event entertainment market.

1. **Competitive Pricing:** Our prices are set after analysing competitors in the local photobooth market. This ensures MugShotz remains appealing and cost-effective while maintaining healthy profit margins.
2. **Tiered Packages:** Optional upgrades like 360˚video booths, custom photo frames, AR filters and extra hours allow customers to personalise their experience. These add-ons also create opportunities for increased sales and enhanced client satisfaction.
3. **Add-On Services:** Optional upgrades like 360˚video booths, branded photo frames, AR filters and extra hours allow customers to personalise their experience while increasing sales potential.
4. **Promotional and Seasonal Pricing:** Special discounts will be offered during festive periods, wedding seasons or promotional campaigns to attract new customers and boost bookings during key times of the year.
5. **Loyalty and Referral Discounts:** To build long-term relationships, MugShotz will reward returning clients with loyalty benefits and referral incentives, encouraging repeat business and positive word-of-mouth promotion.

4.5 Supply Strategy

Mugshotz is committed to deliver high-quality and memorable photo experiences through modern and sustainable equipment. The supply strategy focuses on efficiency, sustainability and cost-effectiveness to ensure seamless operations and customer satisfaction.

Equipment and Supplies Procurement:

1. **Photobooth Units and Cameras:** Professional-grade DSLR cameras, ring lights, touch-screen displays and photo printers from reputable international and local suppliers known for their high-quality hardware. These suppliers are chosen for their reliability and excellent after sales support.
2. **Printing and Consumables:** The business will partner with reliable suppliers for high-quality photo paper, ink cartridges, and other printing materials. Purchasing agreements will be established to reduce costs while maintaining premium print quality and durability.
3. **Custom Backdrops and Props:** Mugshotz will collaborate with local designers and suppliers to produce creative themed backdrops and fun event props. These will require regular updates to match seasonal events and client branding needs.
4. **Furniture and Setup Accessories:** Stylish and portable items like booth frames, stands, lighting mounts, and more will be purchased to create an eye-catching installation at every event. Priority will be given to convenience, durability and portability of each material.
5. **Digital Equipment and Software:** Photobooths will be equipped with modern software for instant photo editing, filters and social media sharing. Software licenses will be procured from certified vendors to ensure a smooth and secure user experience.
6. **Power and Connectivity:** Energy-efficient lighting, portable power backup and reliable Wi-Fi routers will be provided to ensure uninterrupted service during indoor hours.

4.6 Maintenance Strategy

1. **Routine Checks:** Regular inspection and servicing of cameras, lighting, touchscreen systems and printers to ensure that all the equipment are functioning properly.
2. **Booth Hygiene:** Frequent cleaning of booth interior, touchscreen systems and shared props to maintain good hygiene and ensure guests have an enjoyable experience.
3. **Backup and Safety:** Keep backup equipment and regularly check electrical equipment to prevent breakdowns and ensure safety and reliability.
4. **Technical Support:** Work with technicians to quickly fix any equipment issues, keeping the photobooth running smoothly.

Inventory Management:

Mugshotz will adopt a flexible inventory system that will adapt to event demand. Supplies like cameras, lighting and printing gear, and themed props will be monitored regularly to ensure accessibility and prevent excess. This ensures less waste, and a smooth operation of the booth. Regular inventory checks and restocking schedules will help ensure the photo booth is fully stocked and ready for upcoming bookings and peak event seasons.

Supplier Relationships:

Mugshotz aims to establish strong, lasting relationships with its suppliers by staying honest, fair and easy to work with. This approach will help secure competitive pricing and timely deliveries. The business will also keep backup suppliers for essentials like ink, props and lighting to ensure uninterrupted operation.

Quality Assurance:

1. **Photo Booth Equipment:** All camera, lighting systems and props are regularly inspected to ensure they meet quality, safety and performance standards. To ensure reliable service and a positive customer experience, high-quality equipment will be prioritised.
2. **Props and Booth Setup:** All props, backdrops and booth areas will be carefully inspected and cleaned before each event to ensure that both hygiene requirements and presentation quality are maintained. Mugshotz will use only durable and well-maintained equipment to maintain a professional setup.
3. **Customer Experience:** Mugshotz will make sure that every part of the photobooth experience, from cameras to themed props, matches customer standards, so that customers are thoroughly satisfied with the service. All customer feedback will be taken into consideration to keep improving, making sure every visiting stays memorable.

This supply strategy helps Mugshotz keep a reliable flow of all supplies so that each guest can enjoy a flawless and memorable experience. It will also ensure that the business remains in the competitive entertainment space.

---

5. Management Team

5.1 Team/Staff Composition

1. CEO / Founder (Dhruv Govind)

Role: The visionary leader and strategic decision-maker put in charge of the company's long-term success.

Responsibilities:

- Defines the company's mission, long term goals and overall business plans for expansion and offerings.

Responsibilities:

- Transports set up and take down the equipment securely at the event location.
- Stays at the event location to assist with the booth throughout the rental period and ensure smooth operation, troubleshoot any technical issues and manage the prop table.
- Interacts with guests and guide them through using the booth, as well as guiding the guest flow.
- Ensures that all digital photos are backed up and ready for transfer to the client after the event.

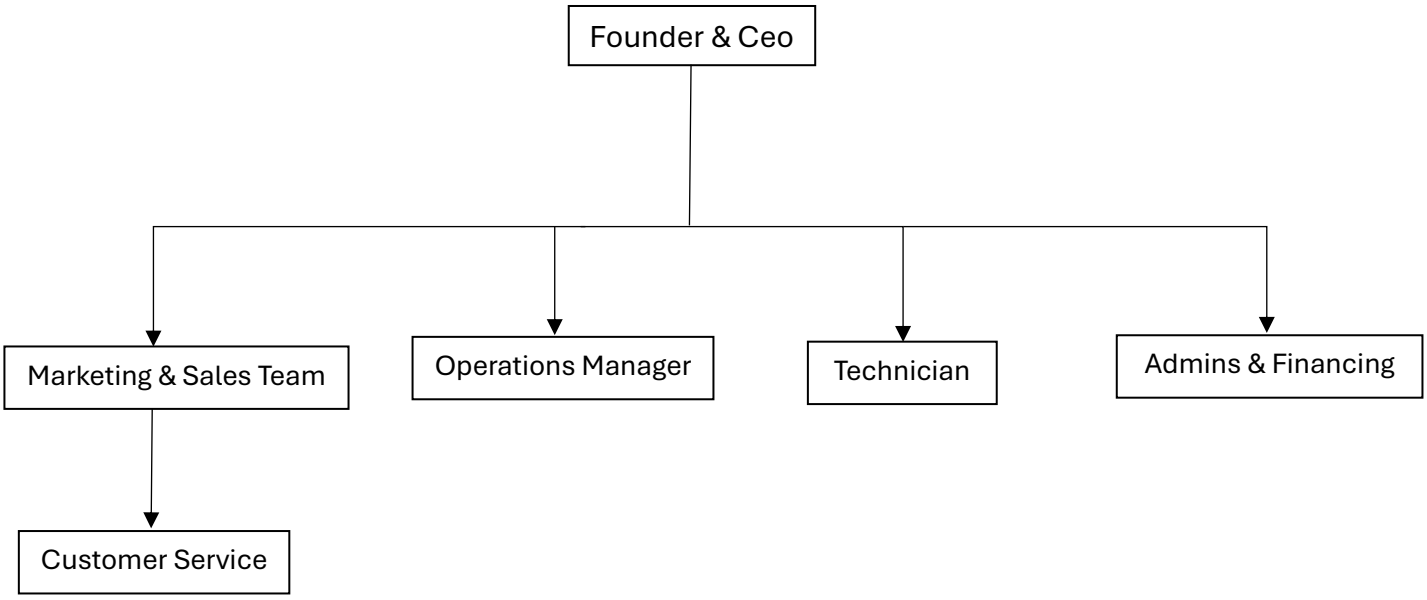
6. Customer Service Agent (Ghavish Subratty)

Role: The primary point of contact for customers and oversees their requests and handles their queries.

Responsibilities:

- Acts as an intermediate between the client and Mugshotz's personnel regarding custom demands and logistical details.
- If required, the customer service agent guides clients through the booking process, such as selecting the package, confirming the customer's personal details and verifying payment.
- After the event, the customer service agent contacts customers and ask for their feedback to ensure customer satisfaction and allow for constructive criticism.

5.2 Organisational Structure



5.3 Opening and Closing Time

MugShotz will operate from 10:00 am to 09:00 pm, which will allow coverage of both daytime and evening events. The team will be present at the event by 09:00 or 1 hour before the event starts to do the required equipment setups, test lighting and cameras, and ensure that all the digital materials and props are ready to use.

For private events such as wedding ceremonies, corporate functions and parties, our services may be extended until midnight depending on the client's schedule. After each event, staff will handle equipment shutdown, data transfer and cleanup of material to be ready for the next booking.

This schedule ensures flexibility to serve the maximum of clients and maximise business potential and efficiency as well as customer satisfaction.

5.4 Personnel Plan

Below is a table for the personnel plan for year 1:

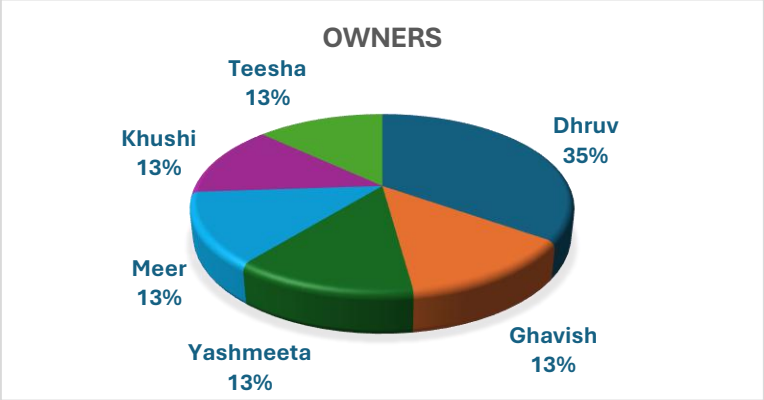
Job Title	Year 1 Monthly Salary	Yearly Payroll
Chief Executive Officer	Rs 30,000	Rs 360,000
Marketing Manager	Rs 27,500	Rs 330,000
IT Manager	Rs 25,000	Rs 300,000
Photo Booth Manager	Rs 22,500	Rs 270,000
Photo Booth Technician	Rs 20,000	Rs 240,000
Customer Service Agent	Rs 20,000	Rs 240,000

Yearly Payroll Total for Year 1: Rs 1,740,000

Note: In line with a standard salary increment policy, the salaries of each staff will increase by 3%-5% based on that staff's performance. Bonuses are also paid at the end of the year based on the company's performance for that year. Furthermore, salaries will be reviewed each year and incremented accordingly for the upcoming year.

5.5 Business Ownership

The following pie chart serves as a visual representation of the ownership of the business.



---

6. Financial Plan

6.1 Start-Up Requirements

Important Assumptions:

a. Tax Rate: 15%

b. Bank interest Rate: 7.50%

According to our five-year estimates, Mugshotz is expected to maintain a stable financial position. The initial funding will consist of a three-year loan of Rs 300,000, and a capital investment of Rs 700,000 from the Owner and Investors.

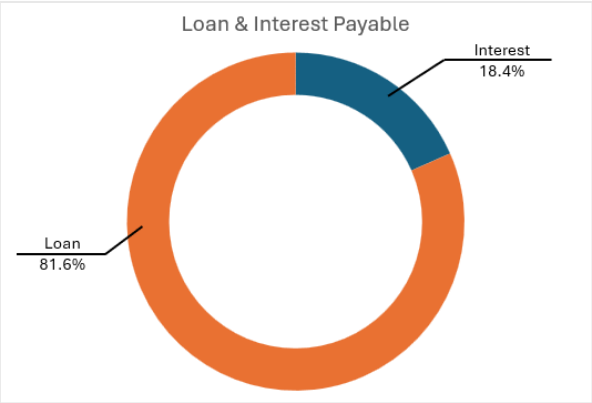
The following financial statements have been prepared in accordance with the general accounting principles and include amounts based on reasonable assumptions and judgement.

Start-Up Assumptions:

Assets	Cost
Photo Booth Equipment	
• 3 x "Insta360 X5(Standard Package)"	Rs 82,500
• 3 x "Nikon D7500 DSLR Cameras"	Rs 215,000
• 6 x "Battery Packs"	Rs 13,500
• Wiring 1. HDMI 2. USB cables 3. Extension cords	Rs 7,500
• Storage 1. Toshiba Canvio 2TB External HDD 2. 5 x "Kioxia 64GB SD Card"	 Rs 4,700 Rs 3,500
Photo Booth Stalls	
• 1 x Photo Booth Machine	Rs 50,000
• 2 x "Custom-Made Photo Booth (Fully handmade"	Rs 75,000
• Custom-Made Props	Rs 20,000
Conversion of Shop to Studio	
• Restructuring Layout	Rs 200,000
• Furnishing	Rs 125,000
• Deco	Rs 25,000
Registration Fees	
• Business Registration Fees	**Rs 100,000**
TOTAL	**Rs 921,700**

6.2 Loan & Loan Repayments

Loan Amount	Rs 360,000
Interest Rate	7.50%
Loan Duration	3 years
Yearly Interest Charged	Rs 22,500
Total Interest Payable	Rs 67,500

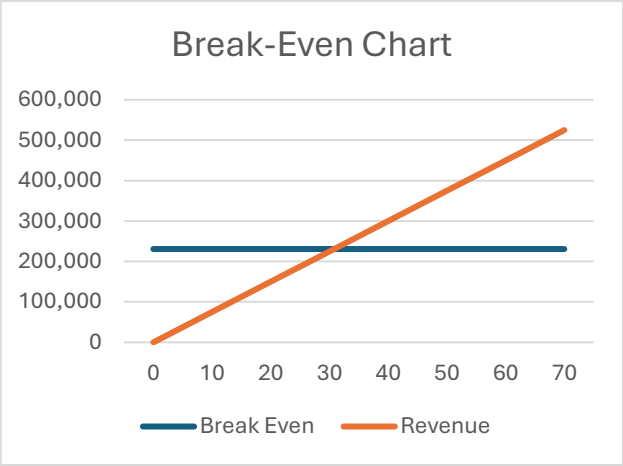


Unless any additional loan is taken and Mugshotz runs into any unforeseen circumstances, the loan should be paid for within the first 3 years of operation. As such, there will be a considerable increase in the profit margin as we will no longer need to effect monthly instalments to the bank.

6.3 Break-Even Analysis

Note: Event Variable Cost consists of expenses like fuel for transport & meal for staff. Fixed Cost consists of expenses like loan and interest payments

Event Variable Cost (Rs):	
Per event	1,400
Average Selling Price (Rs):	
Per event	7,500
Total Selling Price (Rs):	
Year 1	540,000
Average Sessions per Device:	
Year 1	72
Fixed Cost (Rs):	
	130,000
Break-Even Revenue (Rs):	
	230,800



To reach the break-even point every year, **Mugshotz** needs to complete approximately 31 **event bookings**, or **3 events monthly**, generating a total revenue of around **Rs 270,000**. Once this level is achieved, any additional events will contribute directly to profit. Based on projected growth and pricing between Rs 7,500–10,000 per event, Mugshotz is expected to surpass this threshold comfortably every year, ensuring stable profitability and long-term scalability.

6.4 Statement of Profit/Loss

Year 1

MugShotz		
Statement of Profit & Loss (Forecasted) for the year ended October 2026		
Revenues	**Rs**	**Rs**
Photo Booths		540,000
Total Revenues		540,000
Less Cost of Rentals		
Transportation	72,000	
Meals	28,800	
Cost of Rentals		(108,000)
Gross Profit		432,000
Less Expenses		
Advertising	10,000	
Loan Repayment	30,000	
Insurance	25,000	
Legal Costs	100,000	
Salaries	0	
Depreciation	82,170	
Total Expenses		(247,170)
Profit before Interest & tax		184,830
Less Taxation (15%)	27,725	
Interest Charge	30,000	(57,725)
Profit for the year		127,105

Note:

1. To avoid bankruptcy, the business owner and investors, who also make up the staff of Mugshotz, have contractually agreed to being paid 70% of the annual revenue at the end of each year until the company can afford to pay the sum of Rs 1,740,000 yearly. The financial projections show that, as from the 4th year, monthly salaries could comfortably be paid.
2. While photobooths and cameras are capital assets, their depreciation rate is relatively low compared to other equipment. With proper maintenance and occasional upgrades, they retain functionality and value over several years, making them cost-effective long-term investments for the business. Hence, we have allocated only 10% for *depreciation* in our books.

6.5 Statement of Financial Position

Year 1

MugShotz			
Statement of Financial Position (Forecasted) as at October 2026			
Assets	**Cost (Rs)**	**Acc Dep (Rs)**	**NBV (Rs)**
Non-Current Assets			
Photo Booth Equipment	326,700	32,670	294,030
Photo Booth Stalls	145,000	14,500	130,500
Studio	350,000	35,000	315,000
	821,700	82,170	739,530
Current Assets			
Cash at Hand		198,400	
Cash at Bank		244,175	442,575
Total Assets			1,182,105
Equity & Liabilities			
Equity			
Capital at Start		700,000	
Add Profit for the Year		127,105	
Capital at end			827,105
Non-Current Liabilities			
Loan			300,000
Non-Current Liabilities			
Trade Payables			55,000
Total Equity & Liabilities			1,182,105

6.6 Statement of Cash Flows

MugShotz		
Statement of Cash Flows (Forecasted) for the year ended October 2026		
	Rs	Rs
Profit before Taxation	184,830	
Adjustments for:		
Depreciation	82,170	
Increase in Payables	55,000	
Cash generated from operations		322,000
Less Interest Paid	(30,000)	
Less Taxation Paid	(27,725)	
Net Cash flow from Operating Activities		317,000
Net Cash flow from Investing Activities		(821,700)
Net Cash flow from Financing Activities		(100,000)
Change in Cash & Cash equivalents		(604,700)
Cash & Cash equivalents at Start		0
Cash & Cash equivalents at End		(604,700)

Note: In the first year, the cash flow is significantly negative since assets have been purchased. However, it is set to greatly improve within the next few years, improving the cash flow.

6.7 Financial Projections/Cash Budget Forecast

	Year 1	Year 2	Year 3	Year 4	Year 5
Balance at Start	-	(604,700)	212,300	1,624,300	1,900,300
Net Cash from Operating Activities	317,000	917,000	1,800,000	660,000	1,596,000
Purchase of NCAs	(821,700)	-	(288,000)	(384,000)	(533,760)
Repayment of Loan	(100,000)	(100,000)	(100,000)	-	-
Balance at End	(604,700)	212,300	1,624,300	1,900,300	2,962,540

*NCA (Non-Current Assets) – Assets that are expected to be used by the business for more than 1 year

Note:

1. Out of the Rs 1,000,000 raised in the first year, the NCAs, such as cameras, photobooth stalls and props, will be fully paid and a sum of Rs73,800 will be left over.

2. As aforementioned, to avoid bankruptcy, the business owner and investors, who make up the staff of Mugshotz, have contractually agreed to being paid 70% of the annual revenue at the end of each year until the company can afford to pay the sum of Rs 1,740,000 yearly. The financial projections show that, as from the 4th year, monthly salaries could comfortably be paid, explaining the slight decrease in gradient for that period.

Dhruv Govind's CV

Owner and CEO of Mugshotz.

Dhruv Govind

WORK EXPERIENCE

Trainee – *Cybernaptics Ltd* | — **MFD Business Centre Mer Rouge, 11069, Mauritius**
January 2025 – May 2025

Completed a 5-month training internship at Cybernaptics, a cutting-edge tech firm, where I was part of a dynamic and collaborative development team. Gained extensive hands-on experience in managing and transforming large datasets using advanced data processing techniques to ensure accuracy, consistency, and usability. Successfully designed and developed a secure, scalable user registration platform using PHP, Laravel, MySQL, and HTML, with seamless front-end and back-end integration to optimize system efficiency and data flow. Contributed to the design and implementation of a Visitor Management System (VMS), enabling efficient visitor check-in, real-time tracking, and improved administrative oversight. Took ownership of diagnosing and resolving critical code issues, improving application stability and performance through debugging, code optimization, and adherence to best practices. Strengthened my analytical and problem-solving abilities while working on real-world projects that enhanced internal processes and system functionality.
